

**Alcona Township Fire Department
Board Report
November 10, 2009**

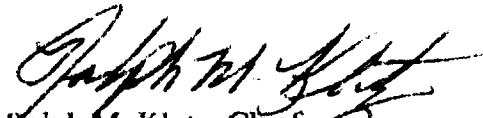

Two fire department personnel completed the drivers training class: Sarah Escareno and Ron Tacia.

Nine fire department personnel attended six hours of training at Alpena's CRTC burn tower.

On November 3, we assisted Sanborn Township with a structure fire on US 23.

The state of Michigan fire fighter training has started a new program where fire departments will have to go on line to access all types of reports, and training records. Fire chiefs will submit training applications for new members, add or delete members on or off training records, and access numerous additional reports.

Respectfully submitted,

Ralph M. Klotz, Chief
