

# Alcona Township Plot Plan Requirements for Land Use Permits-Example

## Instructions:

Locate existing buildings, septic tank and field, well, property corners (lots if in subdivision) and driveway(s) on your sketch.

Show in detail any proposed change in elevation to your lot due to the proposed construction.

Any new construction or additions to existing buildings are to be shown cross-hatched.

Deck steps are to be included in overall dimensions of the deck.

Please complete your sketch prior to calling for the Zoning Administrator to issue your Land Use Permit.

Measurements should be to the road right-of-way.
